

# Millionaires don't use astrology. Billionaires do.

— J. Paul Getty

## I INVITE YOU TO DROP PRECONCEIVED NOTIONS ABOUT ASTROLOGY.

### I'm not a psychic.

Sports Astrology is actually a sensible, discrete profession—hardly resembling generalized horoscope fare.

As a devoted baseball fan and certified Sports Astrologer, I impart a tangible, **COMPETITIVE ADVANTAGE**.

While I don't have a crystal ball, I do have an **80% ACCURACY RATE** when supplied with data, extrapolating future performance cycles for entire contracts.

Over two billion salary dollars were speculated last season on the performance of major league ballplayers.

## I CAN LITERALLY SAVE A TEAM MILLIONS OF DOLLARS.

### If he is such a good hitter, then why isn't he hitting better?

— Billy Beane

Why pay for past performance when there's pioneering baseball knowledge to benefit from? Timing is everything! Smart teams obtain **FUTURE PERFORMANCE INDICATORS**.

Sports Astrology illuminates an athlete's mental and physical game.
